UMS 865 Cab

<https://www.esc.guide/post/ums-865-cab>

Completely aluminum boat UMS 865 is the largest serial cabin boat built by UMS company. The UMS 865 Cab modification is equipped with a comfortable cabin in the bow, which provides possibility of rest during long trips. UMS 865 Cab, like UMS 865 HT, can be equipped with one or two engines with a total capacity of up to 500 hp. Due to the high strength characteristics, UMS 865 withstands even the most severe conditions. The size of the boat provides enough space for both professional tasks and active recreation. In addition, the boat can be equipped with a sleeping place in the cabin, a heater, a kitchen module, a refrigerator and a toilet in a separate compartment.

UMS 585 DC

<https://www.esc.guide/post/ums-585-dc>

Boat UMS 585 DC – Designed for hard operating conditions on open water, the uncompromisingly strong and reliable hull will be a convenient universal solution for active family recreation, fishing and solving professional tasks. High flip resistance allows you to confidently perform maneuvers at the highest speeds. A boat with complex shape and excellent seaworthiness. We removed rivets and fasteners in the hull construction – all parts are securely welded to the hull, which ensures long-term operation without the need for maintenance of your boat. Careful building of the hull allows to make boats without additional painting.

03/08/19: The fight to clear seaweed on Miami Beach faces a tiny, mighty foe: baby sea turtles

<https://www.esc.guide/post/03-08-19-the-fight-to-clear-seaweed-on-miami-beach-faces-a-tiny-mighty-foe-baby-sea-turtles>

Each morning's tide brings in ribbons of spongy seaweed, brown blotches on the Miami Beach sand that stretch for blocks and repulse many sun seekers and swimmers. On Friday, county crews finally began removing sargassum from the beach, an operation that administrators say has been hampered by daunting hurdles. That would be the turtles.

Sunday 4

MENZI MUCK M545x

<https://www.esc.guide/post/menzi-muck-m545x>

The #WalkingExcavators' special features are based on a sophisticated high-tech chassis and the patented boom: various hydraulic cylinders enable the all-rounder to adapt its wheels and supports to any terrain.

MOMO Luna

<https://www.esc.guide/post/momo-luna>

MOMO BarnHouse

<https://www.esc.guide/post/momo-barnhouse>

MOMO Barn House (47 m² modular steel house in turn-key standard) is a modular all-year round house based on a steel frame. Ground floor with a spacious living room with a kitchenette, bathroom and entry hall. On the first floor you will find two extra bedrooms. The house is built on our production site passing through all stages of production until it is completely finished. After completion at the production site, it is transported to its final destination. MOMO Barn House is assembled within 1-2 days and then ready to use. The house is delivered in a turn-key standard.

UMS 585 CC

<https://www.esc.guide/post/ums-585-cc>

Boat UMS 585 CC is being built on the basis of hull UMS 585 DC, however it is fitted with central console, which comfortably accommodates driver and passenger. Due to its layout UMS 585 CC has passages alongside the boards offering more freedom to the users. High flip resistance, excellent seaworthiness and spacious cockpit make this boat really interesting for professional use.

UMS 585 DC

<https://www.esc.guide/post/ums-585-dc>

Boat UMS 585 DC – Designed for hard operating conditions on open water, the uncompromisingly strong and reliable hull will be a convenient universal solution for active family recreation, fishing and solving professional tasks. High flip resistance allows you to confidently perform maneuvers at the highest speeds.

A boat with complex shape and excellent seaworthiness. We removed rivets and fasteners in the hull construction – all parts are securely welded to the hull, which ensures long-term operation without the need for maintenance of your boat. Careful building of the hull allows to make boats without additional painting.

06/08/19: Supporting Expeditionary Force Logistics with #USV Technology

<https://www.esc.guide/post/06-08-19-supporting-expeditionary-force-logistics-with-usv-technology>

While logistics isn't a topic that typically evokes deep passion, it should be.

Wednesday 7

UMS 485 DC

<https://www.esc.guide/post/ums-485-dc>

Boat UMS 485 DC – light and comfortable vessel with two consoles and spacious cockpit. It offers maximum protection from weather conditions for driver and passenger, leaving enough place for fishing, hunting or baggage transportation in the bow part.

What Is #Glamping?

<https://www.esc.guide/post/what-is-glamping>

It seems that the words "hiking" and "convenience" lie in completely different planes, and they are not allowed to intersect under any circumstances. But it only seems! Many travelers have already chosen for themselves a relatively new type of outing into nature with all the amenities – glamping. What is it, how much does it cost, and where to go for it – let's figure it out together.

15/08/18: Florida's Gulf Coast Battles Deadly And Smelly Red Tide

<https://www.esc.guide/post/15-08-18-florida-s-gulf-coast-battles-deadly-and-smelly-red-tide>

Florida this week declared a state of emergency because of a slow-moving natural disaster — red tide.

Red tide is toxic algae that have persisted off Florida's Gulf Coast for nearly a year. In recent weeks, the algae bloom has worsened, killing fish, turtles and dolphins and discouraging tourism on some of the state's most beautiful beaches.

<https://www.esc.guide/post/white-folding-canopy-container-pool-stand-3x2-meters-ral-9016>

Our folding canopy container in White RAL 9016 from Bar Container serves as trendy information stand at a public pool.

MENZI MUCK #Logging

<https://www.esc.guide/post/menzi-muck-logging>

Profitable, mechanical timber harvesting in challenging terrain has been made possible by the Menzi Muck harvester.

MENZI MUCK #RiverCleaning

<https://www.esc.guide/post/menzi-muck-river-cleaning>

The Menzi Muck allterrain spider #excavator even proves its versatility within the context of water supply and distribution.

UMS 545 CC

<https://www.esc.guide/post/ums-545-cc>

Boat UMS 545 CC – light and comfortable version of 545 with central console. This layout provides maximum operational comfort for carrying out special forces tasks, work, fishing, or diving.

UMS 585 CC

<https://www.esc.guide/post/ums-585-cc>

Boat UMS 585 CC is being built on the basis of hull UMS 585 DC, however it is fitted with central console, which comfortably accommodates driver and passenger. Due to its layout UMS 585 CC has passages alongside the boards offering more freedom to the users. High flip resistance, excellent seaworthiness and spacious cockpit make this boat really interesting for professional use.

UMS 485 DC

<https://www.esc.guide/post/ums-485-dc>

Boat UMS 485 DC – light and comfortable vessel with two consoles and spacious cockpit. It offers maximum protection from weather conditions for driver and passenger, leaving enough place for fishing, hunting or baggage transportation in the bow part.

UMS 545 DC

<https://www.esc.guide/post/ums-545-dc>

Boat UMS 545 DC – light and comfortable vessel with two consoles and spacious cockpit. It offers maximum protection from weather conditions for driver and passenger. In the bow part there is even more place for fishing, hunting or baggage transportation comparing to 485 DC.

UMS 865 Cab

<https://www.esc.guide/post/ums-865-cab>

Completely aluminum boat UMS 865 is the largest serial cabin boat built by UMS company. The UMS 865 Cab modification is equipped with a comfortable cabin in the bow, which provides possibility of rest during long trips. UMS 865 Cab, like UMS 865 HT, can be equipped with one or two engines with a total capacity of up to 500 hp. Due to the high strength characteristics, UMS 865 withstands even the most severe conditions. The size of the boat provides enough space for both professional tasks and active recreation. In addition, the boat can be equipped with a sleeping place in the cabin, a heater, a kitchen module, a refrigerator and a toilet in a separate compartment.

UMS 585 DC

<https://www.esc.guide/post/ums-585-dc>

Boat UMS 585 DC – Designed for hard operating conditions on open water, the uncompromisingly strong and reliable hull will be a convenient universal solution for active family recreation, fishing and solving professional tasks. High flip resistance allows you to confidently perform maneuvers at the highest speeds. A boat with complex shape and excellent seaworthiness. We removed rivets and fasteners in the hull construction – all parts are securely welded to the hull, which ensures long-term operation without the need for maintenance of your boat. Careful building of the hull allows to make boats without additional painting.

www.esc.guide/facebook

UMS 700 HT

<https://www.esc.guide/post/ums-700-ht>

The UMS 700 HT aluminum boat is a speed boat. It is intended for use with outboard motors with a maximum power of up to 250 hp. Like all boats built by the UMS company, it has unique characteristics of strength, the boat is adapted to the most severe operating conditions. Designed for rescuers, water police and other services related to water spaces, for fishermen, hunters and people who lead an active lifestyle. For additional comfort, the boat can be equipped with a sleeping place.

MOMO #ContainerPools

<https://www.esc.guide/post/momo-container-pools>

CubePools are fully functional swimming pools that allow you to enjoy a range of amenities with minimal owner involvement. Our pools are manufactured according to the preferences and requirements of the owner. They're characterized by mobility, and thus quick assembly and no burdensome construction work. The undoubted advantage is the fact that the pool can be used immediately after filling it with water.

Monday 19

UMS 655 CC

<https://www.esc.guide/post/ums-655-cc>

Boat UMS 655 CC is a 6-meter boat with central console, which comfortably accommodates driver and passenger. Due to its layout UMS 655 CC has passages alongside the boards offering more freedom to the users. And like all 655 models it has powerful and reliable hull with 4 mm thick bottom, as well as excellent hydrodynamic and driving characteristics.

19/08/19: The Barber SURF RAKE 600HD Beach Cleaning Machine

<https://www.esc.guide/post/19-08-19-the-barber-surf-rake-600hd-beach-cleaning-machine>

At 3,800 pounds, the 600HD is the largest beach rake offered by H. Barber & Sons and the most widely-used beach cleaner by municipalities to clean expansive beaches. Cleaning sand up to nine (9) acres an hour with a seven (7) foot wide cleaning path.

19/08/22: Delivering Mission Capabilities to the Fleet via USVs: From Platforms to the Payloads

<https://www.esc.guide/post/19-08-22-delivering-mission-capabilities-to-the-fleet-via-usvs-from-platforms-to-the-payloads>

In my previous article highlighting the coming of autonomous unmanned surface vessels to the fleet, I underscored: "Autonomous USVs can provide wolfpack deployed ISR or relay systems to enhance the reach and survivability of the fleet in its distributed operational role."

Tuesday 20

MOMO BarnHouse

<https://www.esc.guide/post/momo-barnhouse>

MOMO Barn House (47 m² modular steel house in turn-key standard) is a modular all-year round house based on a steel frame. Ground floor with a spacious living room with a kitchenette, bathroom and entry hall. On the first floor you will find two extra bedrooms. The house is built on our production site passing through all stages of production until it is completely finished. After completion at the production site, it is transported to its final destination. MOMO Barn House is assembled within 1-2 days and then ready to use. The house is delivered in a turn-key standard.

BARBER / SURF RAKE Dual 600XL

<https://www.esc.guide/post/barber-surf-rake-dual-600xl>

This beach cleaning machine more than doubles the cleaning capacity of typical 'large' beach cleaning machines, so municipalities can clean massive beaches in a fraction of the time of the fastest beach cleaning machines. Designed specifically for municipalities with large public beaches and high volume, the SURF RAKE 600XL two 600HD units, while maintaining their original speed and maneuverability.

MENZI MUCK M545

<https://www.esc.guide/post/menzi-muck-m545>

MENZI MUCK #CuttingDryTrees

<https://www.esc.guide/post/menzi-muck-cutting-dry-trees>

Profitable, mechanical timber harvesting in challenging terrain has been made possible by the Menzi Muck harvester.

BULDOCK / Case Study: Razelm Luxury Resort

<https://www.esc.guide/post/buldock-case-study-razelm-luxury-resort>

Amazing floating pontoons at Razelm Luxury Resort, Romania. The marina around the resort is ready to welcome various motor and sailing yachts, jets and boats.

GRABNER / #InflatableSailCatamarans

<https://www.esc.guide/post/inflatable-sail-catamarans>

The HAPPY CAT is an inflatable catamaran that can be transported in just 3 bags. The 4-piece mast is plugged together and fit into the 185 cm long bag. The HAPPY CAT fits in almost any car, RV and can even be taken on the plane. With a little practice, the catamaran can be assembled by one person in around 30 minutes. The hulls are inflated with a hand pump or electric air pump in about 5 minutes.

GRABNER #SailingAcademy

<https://www.esc.guide/post/grabner-sailing-academy>

In these videos you will learn the most important basics of sailing. If you've always wanted to learn how to sail, these films are just right for you. The chapters are structured similarly to a basic sailing licence in a sailing school. Everything is explained as simply as possible so that you can concentrate on the essentials.

02/08/16: On the Job: Rick Reny rises early to groom the beach

<https://www.esc.guide/post/02-08-16-on-the-job-rick-reny-rises-early-to-groom-the-beach>

Reny works for Old Orchard Beach and one great perk is that he gets to see the sun rise over the ocean.

SOLEMARAN in #SkalnyPolańczyk

<https://www.esc.guide/post/solemaran-in-hotel-skalny-polańczyk>

Solemarans are products created by a Warsaw design studio. COCO is not a pedalo – it is a completely new and innovative type of a floating unit – call it a water sunlounger, a private island or a water bed, with room enough for 5 people!

Wednesday 21

21/08/22: Off grid with all modern luxuries

<https://www.esc.guide/post/21-08-22-off-grid-with-all-modern-luxuries>

When we think of the homes of the future, we often think of steep, stylish and contemporary designs that are connected and customisable but yet leave enough room for privacy.

Surfing Shop Flat Pack Container 4x2m in Color Blue

<https://www.esc.guide/post/surfing-shop-flat-pack-container-4x2m-in-color-blue>

Our flat pack container in blue ordered at Bar Container was a great option for a surfing shop or drinks stand at the beach!

MENZI MUCK #Construction of #HighVoltagePoles

<https://www.esc.guide/post/menzi-muck-construction-of-high-voltage-poles>

In construction Menzi Muck is a synonym for an extremely versatile and powerful tool.

21/07/17: Pat Evans with his new beach cleaning machine

<https://www.esc.guide/post/21-07-17-pat-evans-with-his-new-beach-cleaning-machine>

It's one of South Wales' finest beaches yet visitors have long had to pick their way through broken glass, cigarette butts and fast-food packaging to find the perfect sunbathing spot.

But this summer things are going to be very different at Sandy Bay in Porthcawl.

Football Club Bar Container 4x2m RAL 8000 - FC Lisse

<https://www.esc.guide/post/football-club-bar-container-4x2m-ral-8000-fc-lisse>

Football Club Lisse ordered a Bar Container in the color RAL Classic 8000 Brown at Bar Container for their facilities!

TINY ZEUS

<https://www.esc.guide/post/tiny-zeus>

Premium category. The top of the standard house range. Every detail is carefully designed. The materials are selected through substantial research.

TINY GETAWAY

<https://www.esc.guide/post/tiny-getaway>

Premium category. The top of the standard house range. Every detail is carefully designed. The materials are selected through substantial research.

TINY HARGITA

<https://www.esc.guide/post/tiny-hargita>

Sleek and modern design incorporating all the elements of the tiny living concept. Large windows to let plenty of light in and provide nice view from within. Compact and functional to house two people and their belongings. This Tiny is currently on a mission, touring Europe and providing a glimpse of tiny living culture along the road.

TINY JULIET

<https://www.esc.guide/post/tiny-juliet>

Built on a 5.4m galvanized trailer, Tiny Vienna is our latest tiny house. It has a unique and modern design. The grey fabric on the couch offers a nice contrast to the bright yellow kitchen chairs. Suitable for an off-location office or getaway.

TINY HOGWARTS

<https://www.esc.guide/post/tiny-hogwarts>

Windows left, windows right, up.... Lots of windows give character and a distinctive look to this Tiny. Light just inundates the interior with the huge skylights offering stunning view of the stars at night. Another nice feature is the aluminum covered rear and back side to contrast the wooden parts.

TINY RUBIK

<https://www.esc.guide/post/tiny-rubik>

The Tiny Rubik provides a cozy and eco-friendly living space. Its compact layout allows for efficient use without sacrificing comfort, making it an ideal choice for modern living.

UMS 545 CC

<https://www.esc.guide/post/ums-545-cc>

Boat UMS 545 CC – light and comfortable version of 545 with central console. This layout provides maximum operational comfort for carrying out special forces tasks, work, fishing, or diving.

24/08/22: Powering a modern autonomous house

<https://www.esc.guide/post/24-08-22-powering-a-modern-autonomous-house>

Living off-grid essentially means living independently without being reliant on public utilities including the electrical grid, water, gas, and sewer systems. At iHouse we have created an autonomous dwelling called the Space, that works autonomously – it has its own power station, that is a base for everything in the house to work from cooling, and heating to IT systems. To guarantee the best living experience in Space, there has to be a permanent power regardless of the weather.

24/08/21: Exploring new horizons for ocean observation

<https://www.esc.guide/post/24-08-21-exploring-new-horizons-for-ocean-observation>

Exploiting unmanned surface vehicles to collect ocean data.

BARBER / SURF RAKE - #BeachCleaningMachines

<https://www.esc.guide/post/en-surf-rake>

The Barber SURF RAKE is the world's most popular beach cleaning machine and is used in over 90 countries on 6 continents. As a tractor-towed machine, it is ideal for cleaning medium to large beaches. Barber beach cleaning machines are effective in removing beach pollution such as seaweed, dead fish, glass, syringes, plastic, cans, cigarettes, shells, stone, wood and virtually any unwanted debris. Barber beach cleaning machines are even used to effectively remove oil and tar balls from beach sand after oil spill disasters.

BARBER / SURF RAKE - Μηχανήματα Καθαρισμού Ακτών

<https://www.esc.guide/post/barber-surf-rake>

Το Barber SURFRAKE είναι το πιο δημοφιλές μηχάνημα καθαρισμού ακτών στον κόσμο και χρησιμοποιείται σε περισσότερες από 90 χώρες σε 6 ηπείρους. Είναι μηχάνημα που χρησιμοποιείται συνδυαστικά με τρακτέρ, πράγμα που το καθιστά ιδανικό για τον καθαρισμό μεσαίων έως μεγάλων ακτών.

GLAMPHOUSE / Barta

<https://www.esc.guide/post/glamphouse-barta>

Glamping tent “Barta” is not just a living module, a real all-purpose in the world of glamping!

What Is #Glamping?

<https://www.esc.guide/post/what-is-glamping>

It seems that the words “hiking” and “convenience” lie in completely different planes, and they are not allowed to intersect under any circumstances. But it only seems! Many travelers have already chosen for themselves a relatively new type of outing into nature with all the amenities – glamping. What is it, how much does it cost, and where to go for it – let’s figure it out together.

WATERMATE

One of the most talked about Department of Defense programs in 2024 was Replicator.

29/08/20: MARTAC: Accelerating Innovation in Unmanned Surface Vehicles

<https://www.esc.guide/post/29-08-20-martac-accelerating-innovation-in-unmanned-surface-vehicles>

Florida-based company MARTAC recently unveiled the new MANTAS T38 Unmanned Surface Vehicle (USV). Sea Trials started in May 2020 in the Intracoastal and off of Daytona Beach in the Atlantic. The high performance USV was then tested in San Diego Bay and out in the Pacific the first two weeks of July and participated in a military exercise.

17/06/24: Αναλύοντας το «HELLSCAPE» του Ναυτικού των ΗΠΑ

<https://www.esc.guide/post/17-06-24-αναλύοντας-to-hellscapε-tου-ναυτικού-των-ηπα>

Το «Hellscapε» οραματίζεται ένα πεδίο μάχης γεμάτο με δεκάδες χιλιάδες μη επανδρωμένα πλοία, αεροσκάφη και υποβρύχια που εργάζονται όλα μαζί για να εμπλακούν σε χιλιάδες στόχους σε όλη την τεράστια έκταση του Δυτικού Ειρηνικού. Ο ναύαρχος John Aquilino, πρώην διοικητής της Διοίκησης Ινδο-Ειρηνικού (INDOPACOM), επινόησε αρχικά τον όρο τον Αύγουστο του 2023 στη Διάσκεψη και Έκθεση Emerging Technologies for Defense.

30/08/11: Wet Sand Cleaned with the Barber Surf Rake Beach Cleaner

<https://www.esc.guide/post/30-08-11-wet-sand-cleaned-with-the-barber-surf-rake-beach-cleaner>

The Barber Surf Rake 600 HD cleans the tideline, effectively picking up seaweed, stones, and debris from wet sand.

BARBER / SURF RAKE - #BeachCleaningMachines

<https://www.esc.guide/post/en-surf-rake>

The Barber SURF RAKE is the world's most popular beach cleaning machine and is used in over 90 countries on 6 continents. As a tractor-towed machine, it is ideal for cleaning medium to large beaches. Barber beach cleaning machines are effective in removing beach pollution such as seaweed, dead fish, glass, syringes, plastic, cans, cigarettes, shells, stone, wood and virtually any unwanted debris. Barber beach cleaning machines are even used to effectively remove oil and tar balls from beach sand after oil spill disasters.

BARBER / SURF RAKE - Μηχανήματα Καθαρισμού Ακτών

<https://www.esc.guide/post/barber-surf-rake>

Το Barber SURFRAKE είναι το πιο δημοφιλές μηχάνημα καθαρισμού ακτών στον κόσμο και χρησιμοποιείται σε περισσότερες από 90 χώρες σε 6 ηπείρους. Είναι μηχάνημα που χρησιμοποιείται συνδυαστικά με τρακτέρ, πράγμα που το καθιστά ιδανικό για τον καθαρισμό μεσαίων έως μεγάλων ακτών.

MOMO #ContainerPools

<https://www.esc.guide/post/momo-container-pools>

CubePools are fully functional swimming pools that allow you to enjoy a range of amenities with minimal owner involvement. Our pools are manufactured according to the preferences and requirements of the owner. They're characterized by mobility, and thus quick assembly and no burdensome construction work. The undoubted advantage is the fact that the pool can be used immediately after filling it with water.

SOLEMARAN – Coco

<https://www.esc.guide/post/solemaran-coco>

Solemarans are products created by a Warsaw design studio. COCO is not a pedalo – it is a completely new and innovative type of a floating unit – call it a water sunlounger, a private island or a water bed, with room enough for 5 people!

31/08/23: The US Navy's Designs on a Hybrid Fleet

<https://www.esc.guide/post/31-08-23-the-us-navy-s-designs-on-a-hybrid-fleet>

The US Navy stands at the precipice of a new era of technology advancement. In an address at a major military-industry conference, the US Chief of Naval Operations, Admiral Michael Gilday, revealed the Navy's goal to grow its fleet to 500 ships, comprising 350 crewed vessels and 150 uncrewed maritime vehicles. This plan has been dubbed the "hybrid fleet."
