Invitation to Hellenic Forces to view MARTAC's Devil Ray/MANTAS in NSA Bahrain

Dear Vice Admiral Stylianos Petrakis

Maritime Tactical Systems, Inc. (MARTAC) would like to invite a delegation from your office to NSA Bahrain to view our Devil Ray and MANTAS USVs which includes a day of demonstration of our vessels' capabilities along with training on their systems and operations.

MARTAC has an operations team at NSA Bahrain preparing our vessels for participation in IMX 22 exercises with CTF-59 and US allies in the region. This team would be willing to meet with the delegation on a one-on-one basis at some time before or after the exercises. Currently, team and vessel availability are 25-26-27 of February. This availability is evolving as we are hosting multiple allies up to and after the exercises.

Please let us know a time and who may be attending so we can begin preparations to host them. We look forward to showing you how MARTAC's Devil Ray and MANTAS can augment Hellenic Forces' maritime capabilities.

Best regards,

Stephen Ferretti
