MENZI MUCK #ExtremeSlope

<https://www.esc.guide/post/menzi-muck-extreme-slope>

In construction #MenziMuck is a synonym for an extremely versatile and powerful tool.

MOMO #ContainerPools – Case Study: Cicha Polana

<https://www.esc.guide/post/momo-containerpools-case-study-cicha-polana>

CubePools are fully functional swimming pools that allow you to enjoy a range of amenities with minimal owner involvement. Our pools are manufactured according to the preferences and requirements of the owner. They're characterized by mobility, and thus quick assembly and no burdensome construction work. The undoubted advantage is the fact that the pool can be used immediately after filling it with water.

BULDOCK / #JetSliders

<https://www.esc.guide/post/jet-slider>

BulDock floating Jet Slider is a unique dry-dock system. Its' exceptional design prevents any disproportionate strain on the hull by distributing the watercraft's weight evenly. The Jet Slider does not feature any moving parts, which might be damaged or require additional maintenance. Designed to cater to your needs, this BulDock product makes the servicing of your watercraft a much easier and pleasurable experience.

BULDOCK / #BoatSliders

<https://www.esc.guide/post/boat-sliders>

BulDock Boats Slider V-Slide is a unique dry-dock system. Its' exceptional design prevents any disproportionate strain on the hull by distributing the watercraft's weight evenly. The Boats Slider does not feature any moving parts, which might be damaged or might require additional maintenance. Designed to cater to your needs, this BulDock product makes the servicing of your watercraft a much easier and pleasurable experience.

High Speed #LandingCraft – LC-16

<https://www.esc.guide/post/high-speed-landingcraft-lc-16>

Build #16 is the same platform as the Build #9 and Build #12 and also includes a few upgrades.

BULDOCK #Marina

<https://www.esc.guide/post/buldock-marina>

Because of its' flexibility, BulDock modular floating system can be configured into a marina of any size and shape. It's easy to assemble and suitable for high-load capacities.

<https://www.esc.guide/post/menzi-muck-m525>

The walking excavators' special features are based on a sophisticated high-tech chassis and the patented boom: various hydraulic cylinders enable the all-rounder to adapt its wheels and supports to any terrain.

SOLEMARAN in #PrzystanekZatoka

<https://www.esc.guide/post/solemaran-in-przystanek-zatoka>

Solemarans are products created by a Warsaw design studio. COCO is not a pedalo – it is a completely new and innovative type of a floating unit – call it a **water sunlounger**, a **private island** or a **water bed**, with room enough for 5 people!

GRABNER / #InflatableSailCatamarans

<https://www.esc.guide/post/inflatable-sail-catamarans>

The HAPPY CAT is an inflatable catamaran that can be transported in just 3 bags. The 4-piece mast is plugged together and fit into the 185 cm long bag. The HAPPY CAT fits in almost any car, RV and can even be taken on the plane. With a little practice, the catamaran can be assembled by one person in around 30 minutes. The hulls are inflated with a hand pump or electric air pump in about 5 minutes.

GRABNER #SailingAcademy

<https://www.esc.guide/post/grabner-sailing-academy>

In these videos you will learn the most important basics of sailing. If you've always wanted to learn how to sail, these films are just right for you. The chapters are structured similarly to a basic sailing licence in a sailing school. Everything is explained as simply as possible so that you can concentrate on the essentials.

Sunday 9

MENZI MUCK #MunicipalServices

<https://www.esc.guide/post/menzi-muck-municipal-services>

The Menzi Muck all terrain spider excavator even proves its versatility within the context of water supply and distribution.

UMS 585 DC

<https://www.esc.guide/post/ums-585-dc>

Boat UMS 585 DC – Designed for hard operating conditions on open water, the uncompromisingly strong and reliable hull will be a convenient universal solution for active family recreation, fishing and solving professional tasks. High flip resistance allows you to confidently perform maneuvers at the highest speeds.

A boat with complex shape and excellent seaworthiness. We removed rivets and fasteners in the hull construction – all parts are securely welded to the hull, which ensures long-term operation without the need for maintenance of your boat. Careful building of the hull allows to make boats without additional painting.

Garden Bar Container 3x2m XL with a Foldable Canopy

<https://www.esc.guide/post/garden-bar-container-3x2m-xl-with-a-foldable-canopy>

Our 3x2 Garden Bar Black Container was decorated with bamboo canes to give it a tiki vibe.

MENZI MUCK #CockpitView

<https://www.esc.guide/post/menzi-muck-cockpit-view>

Unobstructed view of the entire working environment and chassis for safety and full control in any situation. Lowvibration, noise-insulated cab for a perfect feeling of space and relaxed work.

GRABNER / #InflatableKayaks

<https://www.esc.guide/post/inflatable-kayaks>

#Kayaks are boats that are paddled in a sitting position with a double paddle. They are available for one, two or three persons. A steering device helps you stay on course. A steering device makes it easy to stay on course. Depending on the model, kayaks are suitable for both calm water and light white water. Some models you can even ride in stronger white water.

GRABNER #PaddleAcademy

<https://www.esc.guide/post/grabner-paddle-academy>

In these videos you will learn the most important basic paddling skills. You will learn which different types of boats there are, how to safely get into a boat, which seating position is useful and the basic paddle strokes. Everything is explained as simply as possible so that you can concentrate on the essentials.

The Grabner Paddle Academy Team wishes good success and lots of fun on the water!

Monday 10

MOMO #ContainerPools – Case Study: Cicha Polana

<https://www.esc.guide/post/momo-containerpools-case-study-cicha-polana>

CubePools are fully functional swimming pools that allow you to enjoy a range of amenities with minimal owner involvement. Our pools are manufactured according to the preferences and requirements of the owner. They're characterized by mobility, and thus quick assembly and no burdensome construction work. The undoubted advantage is the fact that the pool can be used immediately after filling it with water.

MOMO BarnHouse

<https://www.esc.guide/post/momo-barnhouse>

MOMO Barn House (47 m² modular steel house in turn-key standard) is a modular all-year round house based on a steel frame. Ground floor with a spacious living room with a kitchenette, bathroom and entry hall. On the first floor you will find two extra bedrooms. The house is built on our production site passing through all stages of production until it is completely finished. After completion at the production site, it is transported to its final destination. MOMO Barn House is assembled within 1-2 days and then ready to use. The house is delivered in a turn-key standard.

MOMO Leo

<https://www.esc.guide/post/momo-leo>

MOMO leo is based on a 40 feet long new shipping container (30 m²). It's a great all-year round object, built according to the current construction regulations. The dark facade, combined with the contrasting wooden cladding. The huge windows let in a lot of natural light. It's the perfect option for a holiday home or a guest house.

UMS 655 DC

<https://www.esc.guide/post/ums-655-dc>

Boat UMS 655 DC is a 6-meter boat, what makes it serious vessel for leisure or work on water. Powerful and reliable hull with 4 mm thick bottom instill trust.

Many years of boat building experience, embodied in the hull shape, realize excellent hydrodynamic and driving characteristics. Driving this boat, you will feel comfort and confidence!

15/06/18: Leveraging #USVs: Extending the SA of the Expeditionary Strike Group

<https://www.esc.guide/post/15-06-18-leveraging-usvs-extending-the-sa-of-the-expeditionary-strike-group>

As the USN-USMC team shapes its way ahead with regard to the Expeditionary Strike Group, several new capabilities have come to that force. First there was the Osprey; then there was the F-35; and next up will be the coming of the CH-53K.

All of these manned assets can be supplemented with new evolving #unmanned capabilities which can enhance the situational awareness of the ESG force as it approaches its objective area for operations.

15/06/23: BALTOPS 23: A Testbed for New Technology (U.S. Sixth Fleet)

<https://www.esc.guide/post/15-06-23-baltops-23-a-testbed-for-new-technology-u-s-sixth-fleet>

#PUTLOS, Germany –As an ideal setting for experimenting and testing new capabilities and technologies in a cooperative maritime environment, exercise Baltic Operations (#BALTOPS) 23 showcases growing U.S. Sixth Fleet unmanned systems capabilities.

15/06/23: BALTOPS 23: A Testbed for New Technology (U.S. Fleet Forces Command - USFFC)

<https://www.esc.guide/post/15-06-23-baltops-23-a-testbed-for-new-technology>

#PUTLOS, Germany -- As an ideal setting for experimenting and testing new capabilities and technologies in a cooperative maritime environment, exercise Baltic Operations (#BALTOPS) 23 showcases growing U.S. Sixth Fleet unmanned systems capabilities.

15/06/23: U.S. Navy Tests Out #UnmannedBoats for Recovering Downed Pilots

<https://www.esc.guide/post/15-06-23-u-s-navy-tests-out-unmanned-boats-for-recovering-downed-pilots>

The U.S. Navy is using the annual #BALTOPS exercise in the Baltic to test out new applications for unmanned systems, including a novel idea to use an unmanned boat for saving downed pilots who end up in the water.

www.esc.guide/facebook

BULDOCK #Marina

<https://www.esc.guide/post/buldock-marina>

Because of its flexibility, BulDock modular floating system can be configured into a marina of any size and shape. It's easy to assemble and suitable for high-load capacities.

BARBER / SURF RAKE - #BeachCleaningMachines

<https://www.esc.guide/post/en-surf-rake>

The Barber SURF RAKE is the world's most popular beach cleaning machine and is used in over 90 countries on 6 continents. As a tractor-towed machine, it is ideal for cleaning medium to large beaches.

Barber beach cleaning machines are effective in removing beach pollution such as seaweed, dead fish, glass, syringes, plastic, cans, cigarettes, shells, stone, wood and virtually any unwanted debris. Barber beach cleaning machines are even used to effectively remove oil and tar balls from beach sand after oil spill disasters.

MOMO BarnHouse

<https://www.esc.guide/post/momo-barnhouse>

MOMO Barn House (47 m² modular steel house in turn-key standard) is a modular all-year round house based on a steel frame. Ground floor with a spacious living room with a kitchenette, bathroom and entry hall. On the first floor you will find two extra bedrooms. The house is built on our production site passing through all stages of production until it is completely finished. After completion at the production site, it is transported to its final destination. MOMO Barn House is assembled within 1-2 days and then ready to use. The house is delivered in a turn-key standard.

SOLEMARAN – Coco

<https://www.esc.guide/post/solemaran-coco>

Solemarans are products created by a Warsaw design studio. COCO is not a pedalo – it is a completely new and innovative type of a floating unit – call it a water sunlounger, a private island or a water bed, with room enough for 5 people!

MENZI MUCK M545

<https://www.esc.guide/post/menzi-muck-m545>

The #WalkingExcavators' special features are based on a sophisticated high-tech chassis and the patented boom: various hydraulic cylinders enable the all-rounder to adapt its wheels and supports to any terrain.

MENZI MUCK M535x

<https://www.esc.guide/post/4-in-1-hydroponic-farm>

This container farm allows you to grow popular leafy greens like Lettuce and Bok Choy.

Thursday 20

20/06/23: US Navy Uses Unmanned Surface Vessels To Rescue Downed Pilots In BALTOPS Naval Exercise

<https://www.esc.guide/post/20-06-23-us-navy-uses-unmanned-surface-vessels-to-rescue-downed-pilots-in-baltops-naval-exercise>

The US Navy (USN) tested #UnmannedSurfaceVessels (#USV) for maritime military rescue roles in the #BALTOPS naval exercises in the first such use of uncrewed military systems.

20/06/23: BALTOPS 23 concludes in Kiel, Germany

<https://www.esc.guide/post/20-06-23-baltops-23-concludes-in-kiel-germany>

KIEL, Germany – Nineteen NATO Allies and one #NATO partner nation, Sweden, concluded the 52nd iteration of exercise Baltic Operations 2023 (#BALTOPS 23) in Kiel, Germany, June 16, 2023.

The Metal Container in Black 4x2 meters XL

<https://www.esc.guide/post/the-metal-container-in-black-4x2-meters-xl>

The metal container can be organized with accessories from www.barcontainer.com to have everything in reach for quick service.

BULDOCK #Marina

<https://www.esc.guide/post/buldock-marina>

Because of its flexibility, BulDock modular floating system can be configured into a marina of any size and shape. It's easy to assemble and suitable for high-load capacities.

TINY ZEUS

<https://www.esc.guide/post/tiny-zeus>

Premium category. The top of the standard house range. Every detail is carefully designed. The materials are selected through substantial research.

TINY GETAWAY

<https://www.esc.guide/post/tiny-getaway>

Premium category. The top of the standard house range. Every detail is carefully designed. The materials are selected through substantial research.

www.esc.guide/facebook

TINY HARGITA

<https://www.esc.guide/post/tiny-hargita>

Sleek and modern design incorporating all the elements of the tiny living concept. Large windows to let plenty of light in and provide nice view from within. Compact and functional to house two people and their belongings. This Tiny is currently on a mission, touring Europe and providing a glimpse of tiny living culture along the road.

TINY JULIET

<https://www.esc.guide/post/tiny-juliet>

Built on a 5.4m galvanized trailer, Tiny Vienna is our latest tiny house. It has a unique and modern design. The grey fabric on the couch offers a nice contrast to the bright yellow kitchen chairs. Suitable for an off-location office or getaway.

TINY HOGWARTS

<https://www.esc.guide/post/tiny-hogwarts>

Windows left, windows right, up.... Lots of windows give character and a distinctive look to this Tiny. Light just inundates the interior with the huge skylights offering stunning view of the stars at night. Another nice feature is the aluminum covered rear and back side to contrast the wooden parts.

TINY RUBIK

<https://www.esc.guide/post/tiny-rubik>

The Tiny Rubik provides a cozy and eco-friendly living space. Its compact layout allows for efficient use without sacrificing comfort, making it an ideal choice for modern living.

WATERMATE

MOMO #ContainerPools – Case Study: Cicha Polana

<https://www.esc.guide/post/momo-containerpools-case-study-cicha-polana>

CubePools are fully functional swimming pools that allow you to enjoy a range of amenities with minimal owner involvement. Our pools are manufactured according to the preferences and requirements of the owner. They're characterized by mobility, and thus quick assembly and no burdensome construction work. The undoubted advantage is the fact that the pool can be used immediately after filling it with water.

UMS 865 HT

<https://www.esc.guide/post/ums-865-ht>

Completely aluminum boat UMS 865 is the largest serial cabin boat built by UMS company. The UMS 865 HT modification is distinguished by an open bow with lockers for baggage storage. This provides opportunities for recreation or fishing during nice weather conditions. The boat can be powered by one or two engines with a capacity of up to 500 hp. Due to the high strength characteristics, UMS 865 withstands even the most severe conditions. The size of the boat provides enough space for both professional tasks and active recreation. In addition, the boat can be equipped with a sleeping place in the cabin, a heater, a kitchen module, a refrigerator and a toilet in a separate compartment.

25/06/09: Seaweed Removed by Barber SURF RAKE Beach Cleaner

<https://www.esc.guide/post/25-06-09-seaweed-removed-by-barber-surf-rake-beach-cleaner>

Barber SURF RAKE works to remove massive amounts of seaweed from the water before moving on to the tide line and beach. The Surf Rake works well in the water or on the sand to clear the beach of unwanted materials. Check out how it easily lifts a hopper full of seaweed and dumps it into a tall container!

GRABNER / #InflatableSailCatamarans

<https://www.esc.guide/post/inflatable-sail-catamarans>

The HAPPY CAT is an inflatable catamaran that can be transported in just 3 bags. The 4-piece mast is plugged together and fit into the 185 cm long bag. The HAPPY CAT fits in almost any car, RV and can even be taken on the plane. With a little practice, the catamaran can be assembled by one person in around 30 minutes. The hulls are inflated with a hand pump or electric air pump in about 5 minutes.

www.esc.guide/facebook

GRABNER #SailingAcademy

<https://www.esc.guide/post/grabner-sailing-academy>

In these videos you will learn the most important basics of sailing. If you've always wanted to learn how to sail, these films are just right for you. The chapters are structured similarly to a basic sailing licence in a sailing school. Everything is explained as simply as possible so that you can concentrate on the essentials.

GRABNER #PaddleAcademy

<https://www.esc.guide/post/grabner-paddle-academy>

In these videos you will learn the most important basic paddling skills. You will learn which different types of boats there are, how to safely get into a boat, which seating position is useful and the basic paddle strokes. Everything is explained as simply as possible so that you can concentrate on the essentials.

The Grabner Paddle Academy Team wishes good success and lots of fun on the water!

GRABNER / #InflatableKayaks

<https://www.esc.guide/post/inflatable-kayaks>

#Kayaks are boats that are paddled in a sitting position with a double paddle. They are available for one, two or three persons. A steering device helps you stay on course. A steering device makes it easy to stay on course. Depending on the model, kayaks are suitable for both calm water and light white water. Some models you can even ride in stronger white water.

Wednesday 26

26/06/22: U.S. Naval Forces Central Command / U.S. 5th Fleet

<https://www.esc.guide/post/26-06-22-unmanned-surface-vessels-and-crewed-ships-sailed-together-in-the-arabian-gulf>

#Unmanned surface vessels and crewed ships sailed together in the Arabian Gulf!

26/05/23: Ukraine's Defence Minister test-drives Ukrainian-made all-terrain vehicle

<https://www.esc.guide/post/26-05-23-ukraine-s-defence-minister-test-drives-ukrainian-made-all-terrain-vehicle>

... and promises to order more for country's army.

UMS 585 DC Fishing

<https://www.esc.guide/post/ums-585-dc-fishing>

The UMS 585 DC Fishing boat is designed for active fishing, it is a fast and dynamic boat with a maximum engine of up to 150 hp. The boat has all the elements of fishing boats: a locker for six fishing rods, an aerator with a volume of 90 liters in the bow fish platform, a comfortable aft fish platform with two integrated seats and the possibility of additionally install a fisherman's seat and a pole for towing a skier or a wakeboarder.

One of the features of the boat is a convertible awning, which is stored in the aft fish platform locker, and can be used as a bimini for protection from the sun, or a full awning with side walls during rain.

Coffee Bar & Bakery Container 8x2 m RAL 3015

<https://www.esc.guide/post/coffee-bar-bakery-container-8x2-m-ral-3015>

This Coffee Bar uses a 8x2 Bar Container with custom canopy panel in RAL 9005 from Bar Container to serve customers.

TINY ZEUS

<https://www.esc.guide/post/tiny-zeus>

Premium category. The top of the standard house range. Every detail is carefully designed. The materials are selected through substantial research.

TINY GETAWAY

<https://www.esc.guide/post/tiny-getaway>

Premium category. The top of the standard house range. Every detail is carefully designed. The materials are selected through substantial research.

TINY HARGITA

<https://www.esc.guide/post/tiny-hargita>

Sleek and modern design incorporating all the elements of the tiny living concept. Large windows to let plenty of light in and provide nice view from within. Compact and functional to house two people and their belongings. This Tiny is currently on a mission, touring Europe and providing a glimpse of tiny living culture along the road.

TINY JULIET

<https://www.esc.guide/post/tiny-juliet>

Built on a 5.4m galvanized trailer, Tiny Vienna is our latest tiny house. It has a unique and modern design. The grey fabric on the couch offers a nice contrast to the bright yellow kitchen chairs. Suitable for an off-location office or getaway.

TINY HOGWARTS

<https://www.esc.guide/post/tiny-hogwarts>

Windows left, windows right, up.... Lots of windows give character and a distinctive look to this Tiny. Light just inundates the interior with the huge skylights offering stunning view of the stars at night. Another nice feature is the aluminum covered rear and back side to contrast the wooden parts.

TINY RUBIK

<https://www.esc.guide/post/tiny-rubik>

The Tiny Rubik provides a cozy and eco-friendly living space. Its compact layout allows for efficient use without sacrificing comfort, making it an ideal choice for modern living.

26/06/23: We Drove a TANK Through Hollywood!

<https://www.esc.guide/post/26-06-23-we-drove-a-tank-through-hollywood>

Driving the Atlas ATV through Beverly Hills/Hollywood to cause havoc. Fully Amphibious ATV tank, this extreme off-roading vehicle can drive on the water at 5MPH has a crab walk mode & can drive on mountains!

07/06/23: I Drove Ukraine's \$200,000 Off Road Thing

<https://www.esc.guide/post/07-06-23-i-drove-ukraine-s-200-000-off-road-thing>

We got our hands on the newest extreme ATV from Ukraine: the Atlas. We drove it through a lake and on top of a bunch of mountains to find out if it's as rugged as they say.

WATERMATE

<https://www.esc.guide/post/watermate>

We have been in the adventure tours organizing business for more than 25 years. Our boats are developed on the basis of this long experience & wisdom we've gained over the years.

28/06/22: Quiet Developments in the 5th Fleet

<https://www.esc.guide/post/28-06-22-quiet-developments-in-5th-fleet>

It hasn't gotten a lot of press, but #CENTCOM has seen some interesting visitors and additions in recent days.

28/06/22: U.S. Navy LCS Begins First Ever Middle East Deployment

<https://www.esc.guide/post/28-06-22-u-s-navy-lcs-begins-first-ever-middle-east-deployment>

#MANAMA, #Bahrain - USS Sioux City (LCS 11) arrived to Bahrain for a scheduled port visit, June 25, marking the completion of a 10,000-mile journey while becoming the first littoral combat ship to operate in the Middle East.

UMS 655 DC Fishing

<https://www.esc.guide/post/ums-655-dc-fishing>

The UMS 655 DC Fishing boat will satisfy avid fishermen and connoisseurs of comfortable recreation on the water. The boat is equipped with a traditional bow fishing platform with an increased volume aerator and a storage locker for six fishing rods in the cockpit. The aft seat, which is a part of the aft fish platform, is equipped with a quickly removable backrest.

This allows you to comfortably accommodate passengers without losing a large fish platform. UMS 655 DC Fishing is equipped with a convertible type awning, which is stored in a special locker of the aft fish platform. This makes unfolding the awning much faster and easier in bad weather. The boat easily goes to plane at full load with a 150 h.p. engine.
